

## Party Hat Template

1. Make a copy of the patterns on the pages below.
2. Cut out each pattern along the solid lines, keeping the small square and the circle found on each pattern.
3. Place the two patterns on a 12 x 12 in / 30.5 x 30.5 cm piece of cardstock so the squares and circles of each pattern are aligned. This will make a cone shape.
4. Trace around the outside of the combined pattern. (It may help to tape the pieces together for easier tracing.)
5. Create a dotted line on the template in the same location of the pattern.
6. Staple the pattern together following the dotted line.
